TRUCKPOL QUARTERLY REPORT OCTOBER TO DECEMBER 2011

Due to data handling changes, this quarter's content was absorbed within the 2010 Annual Report – which was brought forward for early publication. Truckpol clients and subscribers accommodated the change to ensure their own data consumption remained logical.

We apologise to any researchers who read our Quarterlies for historical reference – please note, that in any event, ALL annual data totals naturally include ALL quarterly data, as would be expected.

Regular Quarterly updates have re-started, as normal, from Jan 2011.
